

**PROTECT YOURSELF WITH THE**  
**HPV VACCINE**  
**HUMAN PAPILLOMAVIRUS**

**HPV is a common virus that could lead to serious consequences.**

**What is the HPV Vaccine?**

- 2-dose vaccine if completed by the age of 15.
- The age of the first dose is between 9 and 11.
- The second dose is completed 6 months after the first dose.
- The HPV vaccine can be given at the same time as the Tdap required for the 7th grade entry.

**GET THIS DONE BEFORE SCHOOL STARTS IN FALL!**

Call (530) 246-5921 today to schedule your preteen for their HPV vaccine. We have walk-in appointments with our nurse available Monday through Friday.

**The HPV vaccine is a cancer prevention. Preventing cancer is better than treating cancer.**
