

Thank you for your interest in the Shasta Community Health Center Family Medicine Residency Program. Our program has three 1st year, three 2nd year, and three 3rd year residents since July, 2018. All three years of continuity clinic are spent at the Shasta Community Health Center (SCHC) clinics. The SCHC Family Medicine Residency works closely with the Mercy Redding Family Practice Residency Program, rotating on inpatient services, sharing call, and coordinating lectures. Our interview days are coordinated to allow you to interview with both programs. We are affiliated with the University of California, Davis Residency Network.

Intern Positions:

In order to ensure the best interview date, please submit all application materials no later than December 1, 2020. After this date, applications will be individually reviewed for consideration. **You will need to submit an ERAS application to each program you are interested in.** All applications are screened based on merit. We will only accept applications received through ERAS - the Electronic Residency Application Service. No other application will be accepted for intern positions. For more information on obtaining an application, please contact your Dean's office. International medical students should contact the ECFMG. The Shasta Community Health Center Family Medicine Residency Program will have three PGY-1 positions available for July, 2021.

International Medical Graduates:

To be considered, applicants must graduate from a medical school that meets the educational requirements of the Medical Board of California and is listed on the World Federation for Medical Education (WFME) and the Foundation for Advancement of International Medical Education (FAIMER) and Research World Directory of Medical Schools joint directory or the World Directory of Medical Schools. For more information on requirements from the Medical Board of California, please access their website at <http://www.mbc.ca.gov>.

Frequently asked questions:

1. What are your minimum score requirements?

There are no minimum score requirements, but scores are used to prioritize invitations to interview. Each application is reviewed in full. Applicants with more than one examination failure on the USMLE or COMLEX are excluded from the applicant pool.

2. Do you accept IMGs in your program?

Yes.

3. Are there IMG's working the SCHC Residency Program?

Yes.

4. Are there IMGs working in the Mercy Redding Family Practice Residency program?

Yes.

5. Is preference given to Green Card holders?

No preference is given to anyone for any reason. All applications are screened based on merit.

6. Is US experience mandatory for the program?

Yes, US experience including hands-on patient care, writing notes, developing treatment plans, and writing orders is required in hospital based and outpatient settings. Observation alone does not meet these criteria. Experience in family practice or another primary care field is encouraged. Applicants must have recent letter of reference from a physician supervisor in the U.S. documenting clinical performance and level of care. These references should include documentation of experience in hands-on patient care and responsibility for writing notes, developing treatment plans, and writing orders. Applications without clear documentation of this experience will not be accepted.

7. Does the program sponsor Visas?

No.

8. Does your program accept DOs?

Yes, our program accepts osteopathic physicians. In addition, we have core and community osteopathic faculty members.

9. Are both the USMLE and COMLEX needed for DO students?

No. One or the other is acceptable.

10. Where can I get a listing of where your residents attended medical school?

Please take a look at the Shasta Community Health Center Residency Program's website (<http://www.shastahealth.org/schc-family-medicine-residency-center>) for information pertaining to the current residents and graduates.

11. When does your program conduct interviews?

The interview season runs from November through January. Please take a look at our website for the most current information. We will coordinate our interview dates with the Mercy Redding Family Practice Residency Program. .

12. How many years after graduation from medical school do you still consider applicants for an interview?

For the 2021-2022 incoming class, applicants must have graduated from medical school after May, 2020. For applicants who have not graduated in the past year, significant clinical experience since graduation must be documented along with written letters of reference. Applicants must have recent (the past year) US clinical experience to be considered for an interview.

13. Does your program offer observerships?

No. All students who participate in rotations at our institution must be currently enrolled in a LCME or AOA accredited school.
