

Has your child had all of their *Health Screenings?*

Your child should be seen at these stages:

- ✓ 2 wks ✓ 2 mo ✓ 4 mo ✓ 6 mo ✓ 9 mo ✓ 12 mo ✓ 18 mo
- ✓ Yearly from 2 to 6 ✓ Every other year from 7 to 11 ✓ Yearly from 12 to 18

At Every Visit

At every visit with your child's clinician remember to check-in about these topics:

- ✓ Growth & nutrition
- ✓ Development
- ✓ Safety
- ✓ Oral health
- ✓ Behavior
- ✓ Vaccinations

Starting at age 3

- Blood pressure screening
- Vision and hearing screening

Starting at age 8

For children at risk: screening for diabetes & high cholesterol

Starting at age 12

- Private screening (without parent/guardian present) for:
Depression & high-risk life style choices

Age Specific

Iron screening at least once for children 9 months to 5 years
and once for girls 12 to 18 years

Lead risk screening once for children between 1 to 2 years

*These recommendations are subject to change
depending on personal or family history*
